The Students' Association of CMC Vellore launched Cognitio in 2013 as an initiative to provide a research symposium platform par excellence undergraduate medical students and, thereby, promote research aptitude among medical students in our country

Over the years, we have collaborated with British Medical Journal and Welcome Trust Research Laboratory. Distinguished keynote and guest speakers from all over the world have shared their experiences in the field of medical research and bioethics

COGNITIO has witnessed a progressive increase in participation from medical students from colleges across the nation. We, the students of CMC Vellore, believe that medical research has a vital significance in developing standards of healthcare in India. Thus, promoting research at an early stage of medical education would play a key role this process. We would like extend our invitation to the faculty and students of your college to come and be a part of Cognitio 2024.

### **ABOUT**

### COGNITIO

Cognitio 2024 will have keynote speech, oral and poster presentations, clinical case presentations and workshops.
